Requirements and Workbook

The National Jewish Committee on Scouting has established five Workbook religious emblems for Jewish Scouts. You will need to work on these requirements separately from your schoolwork even if parts of them are taught in your school. We suggest that you obtain a notebook to organize your thoughts and keep track of the information you need to complete work on each emblem. The notebook is not required, it is not necessary to fill in, but we believe it will help most Scouts organize and keep track of their work. It will be a great place for you to write notes so that you can demonstrate knowledge to your counselor. You may handwrite the information or prefer to use your computer for this purpose. As you complete the requirements, we want you to demonstrate knowledge of them to your counselor.

Information to assist you in earning your emblem can come from many sources such as your local school, public, synagogue or Jewish community center library. Your parents may have a library collection or other information that you can use. The internet is also a great source of information. We encourage you to use it. Please review the BSA's safe web practices with your parents before beginning your research. Please search more than one resource to make sure that your knowledge is accurate. Some of the responses for the emblem requirements can only come from you and how you feel about being Jewish. These are questions of self-evaluation and reflection. Please consider these questions carefully, but there is no specific right or wrong answer.

Some of the information required to earn these emblems can only be obtained by interviewing other members in your community. Please practice safe Scouting practices when visiting or working with other adults on your emblem.

Each emblem has been developed as a complete unit. As you complete the requirements for each emblem and begin work on the next one, please build on your previous knowledge and use the opportunity to further develop your understanding of Judaism.
